

SMART Goal Example Sheet

SUBJECT: Reading (Reading, Writing, Math, or Behavior)

Specific (This means it should be based on a narrowed area you need to work on)

Reading fluency

Measurable (You should be able to tell exactly whether you have accomplished the goal or not.)

Read 100 words per minute

Attainable (Is this something that YOU can accomplish? How will you accomplish it? What percent or number will tell you you have met your goal?)

I am at 90 words per minute right now so I should be able to increase 10 wcpm if I read out loud to practice

Relevant (Do you actually need to work on this goal?)

5th grade reading fluency goals are 120 wcpm

Time-bound (By when will you accomplish your goal?)

I want to accomplish this goal by January (Quarter 2)

SMART Goal (Write it all together here...)

I will increase my reading fluency from 90 wcpm to 100 wcpm by January (beginning of Quarter #2) so that I achieve 83% fluency proficiency for 5th grade level and I will do this by reading a book on my level every day.

Name _____

SMART Goal Brainstorming Sheet

SUBJECT: _____ (Reading, Writing, Math, or Behavior)

Specific (This means it should be based on a narrowed area you need to work on)

Measurable (You should be able to tell exactly whether you have accomplished the goal or not. What percent or number will tell you that you have accomplished it, and why is that a good goal?)

Attainable (Is this something that YOU can accomplish? How will you accomplish it?)

Relevant (Do you actually need to work on this goal? Why is it important?)

Time-bound (By when will you have accomplished your goal?)

SMART Goal (Write it all together here...)

Name: _____

✪ **Final SMART Goal Sheet**

SUBJECT: _____ (Reading, Writing, Math, or Behavior)

SMART Goal (Write it sentence format all together here...)

SMART Goal (Write all the parts of S.M.A.R.T here, too.)

(Specific)

(Measurable)

(Time-bound)

(Relevant)

(Attainable)
